Latest update on Mike Kemp/investigation of Etowah County Sheriff's
Department:

After taking inventory of his house, Mike Kemp found that several videos were missing, one being a copy of the original "Good O Boys Roundup". The original continues to be safe in the hands of our attorney.

The Etowah County Sheriff's Department is extremely pissed that I have released their names and some phone numbers, they're particularly concerned that this is out to the internet.

Phone Numbers:

Etowah County Sheriff's Department 205 546 2825
James Hayes-Sheriff Home # 205 547 1478
Etowah County District Attorney's Office 205 549 5362
Jimmy Hedgspeth-DA Home # 205 543 3088
Johnny Grant-DA investigator Home # 205 492 6856
Judge Bill Cardwell (signed bad warrant) 205 549 5368 office

Please start calling these numbers and express your anger over their corrupt machine, if you can record your conversation, please do and send us a copy.

Joe Hereford (Etowah County Sheriff's Department Task Force) has begun his search for any dirt he can dig up on Jeff Randall, due to the fact Randall has exposed some major corruption within the Sheriff's department. Mr. Randall knows Mr. Hereford personally, they went to the same high school and were one grade apart. Mr. Hereford is trying to have someone, who worked with Mr. Randall at the Attalla Police Department, lie, for the purposes of discrediting Mr. Randall. The interesting fact of this is that all information and allegations that Mr. Randall has brought forth about the ECSD have NOT been disputed by anyone within the department. They are currently in the stage of "no commenting" the press. Anyone who wishes to call the Attalla Police Department (205 538 7837), please do so. Ex-Attalla police officer

Louis Ray, who happens to be black, if that makes a difference to anyone, has offered his full support to Mr. Randall, should any untruth be told. While working for Attalla, Mr. Randall worked almost exclusively with Mr. Ray.

Richard Pointer, Mr. Randall's senior officer at the time, is believed to be working closely with Mr. Hereford in this attempt to dis-credit Mr. Randall's past service record with Attalla P.D. Mr. Pointer is the officer who fired Mr. Randall. The reason for Mr. Randall's termination was that he requested that Mr. Pointer abide by the same rules and regulations that other officers were required to abide by, which resulted in a major pissing contest.

New informants are coming forth to substantiate all allegations made by Mr. Randall. According to a personal interview with J.R. Cambron, a private investigator who works closely with ECSD, the Sheriff's Department Personnel's "jaws dropped to the floor" when they received a copy of the information Mr. Randall has.

This is shaping up to be a REAL pissing contest, these people are much more dangerous than the feds, The Gadsden Minutemen are asking that everyone stand ready, should they need assistance or support. Please understand that this is not an alert, the current situation needs no assistance, however, we feel the situation will get worse before it gets better.

On the brighter side, the ECSD is mortally petrified that there is a possibility of a full call out of the militia nationwide, should trouble arise, I assure you they are very uneasy.

Will keep you updated on the latest developments.

Jeff Randall
